Automated Document Repository System (ADRS) Quick Reference

Pentagon 2000 Software 15 West 34th Street 5th Floor New York, NY 10001 Phone 212.629.7521 • Fax 212.629.7513

TITLE:	Automated Document Repository System (ADRS)				
PART:	General System				
MODULE:	General System Documents BUILD 2022.1				
RESPONSIBILITY:	Procedures Specialist, Pentagon 2000	REVISION:	00		
APPROVED BY:	Vice President, Operations, Pentagon 2000	EFFECTIVE DATE:	7/6/2023		

Automated Document Repository System (ADRS)

The ADRS enables the automatic storage of printed documents each time they are printed. A copy of printed document type and format to be saved in a designated location. The system will store the document each time the document type is printed based on the setup.

ADRS Setup:

Setup ADRS document and file types to save under Administration \rightarrow System Setup \rightarrow Company/Div/Dept Setup \rightarrow Select Company \rightarrow Options \rightarrow ADRS

Automated Documents Repository System (ADRS) setup will open the Doc Type, File Type, and format selection window.

Sales			🗩 lmage/File Ty	/pe List

Format:

Set the document file format needed.

Note:

If format is set <u>**By Account**</u>, then system will save the document in the same format set under Account (Customer / Vendor) Defaults Tab \rightarrow Emails Format

Format	Save Copies
 PDF Format TIFF Format 	 Single Copy
By Account	O Multiple Copies

Save Copies:

<u>Single Copy radio button</u> – Select to save only a single copy of each document that is printed. When the document is reprinted, the previous version of the document is deleted and replaced. with the new copy of the document.

<u>Multiple Copies radio button</u> – Select to save a new copy of the document each time the document is printed. When the document is reprinted, a new version of the document will be saved.

ADRS File Directory Setup

The file storage directory for ADRS is set under Administration \rightarrow System Setup \rightarrow System General Defaults \rightarrow Modules \rightarrow Save Printed Forms (ADRS).

This setup identifies the directory in which copies of printed document files will be saved.

ADRS Functionality:

When using ADRS, each time a document is printed (Print, Fax or Email) a copy is saved in the ADRS setup directory, document as an attachment at the document level and an attachment is linked to the document as an attachment at the document level.

Attachment will be viable from the document → Option → Attachments → Document Attachments
